Welcome to the Nissan Security+Plus Key Replacement Plan

Thanks to technological advancements, most newer Nissan vehicles come equipped with keys/remotes embedded with a computer chip with special codes that match your Nissan's ignition system.

Because of this new technology, and attempts by the manufacturer to make vehicles more theft proof, replacing/reprogramming a lost or stolen key can be expensive not to mention time consuming! Depending on the model, in some cases it can cost as much as \$400 per key.

Count on the Security+Plus Key Replacement Plan to protect you in the event your key/remote is lost, stolen or destroyed.
